**ARKADOS PRESIDENT & CEO OLEG LOGVINOV TO SPEAK AT
ACCESS '06 EXECUTIVE BUSINESS FORUM IN SAN FRANCISCO**

Logvinov to Discuss Broadband over Power Line November 29

Part of Broadband Power Line Session in Conjunction with IEEE Communications Expo

PISCATAWAY, NJ, November 29, 2006 -- Arkados, a wholly owned subsidiary of Arkados Group, Inc. (OTC BB: AKDS), a HomePlug® Applications Company™, announced today that its President & CEO, Oleg Logvinov, will be speaking at ACCESS '06 Executive Business Forum, which is held for the first time in conjunction with the 49th Annual IEEE GLOBECOM Technical Conference and IEEE Communications Expo.

Logvinov will join other industry experts in a panel discussion covering broadband over power line technology on Wednesday, Nov. 29, beginning at 9:45 A.M.

Logvinov stated, "It is an honor to be invited to join this panel and take part in the ACCESS '06 Business Forum. In our view, this forum reflects the growing interest powerline communication technology, and Arkados is proud to be part of the technical community that is developing this growing market."

The ACCESS '06 Business Forum is a new multi-disciplinary executive forum focused on the broad range of "last mile" access technologies being pursued by broadband and wireless service providers, municipalities, and other user communities. Topics of the forum include technology and business issues surrounding the introduction of FTTH, xDSL, cable, broadband over power line, WiFi, WiMax, 3G and beyond in broadband access networks.

The theme of IEEE GLOBECOM 2006, "Communications: The Global Bridge," characterizes the continuing pervasiveness of telecommunications in all aspects of global society, industry, and government. The technical program of IEEE GLOBECOM 2006 will consist of the General Conference focusing on Emerging Technologies and 15 Technical Symposia.

About Arkados, Inc.

Arkados, the HomePlug® Applications Company™, delivers a universal platform that enables the effortless networking of home entertainment and computer devices using standard electricity lines. The company's system-on-chip solutions are uniquely designed to drive a wide variety of powerline-enabled consumer electronics and home computing products, such as stereos, radios, speakers, MP3 players, computers, televisions, gaming consoles, security cameras and cable and DSL modems. Arkados customers can bring numerous sophisticated, full-featured products to market faster at a lower overall development cost using a single platform: the company's versatile and programmable ArkTIC™ platform. Arkados solutions leverage the benefits of HomePlug Powerline Alliance specifications, and can also be used for in-building and to-the-home (BPL) applications. Arkados Inc. is a wholly owned subsidiary of the Arkados Group, Inc. (OTC BB: AKDS). More information can be found at www.arkados.com.

This release includes "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934 that are based upon assumptions that in the future may prove not to have been accurate and are subject to significant risks and uncertainties, including statements as to the future performance of the company and the risks and uncertainties detailed from time to time in reports filed by the company with the Securities and Exchange Commission. Although the company believes that the expectations reflected in its forward-looking statements are reasonable, it can give no assurance that such expectations or any of its forward-looking statements will prove to be correct. Factors that could cause results to differ include, but are not limited to, successful performance of internal plans, product development acceptance, and the impact of competitive services and pricing and general economic risks and uncertainties.
