ARKADOS ADDRESSES UNITED POWERLINE COUNCIL

Piscataway, NJ, September 20, 2007 -- Arkados (OTC BB: AKDS), known as “the HomePlug® Applications Company,” announces that Grant Ogata, Executive Vice President of Worldwide Operations, is addressing the United Powerline Council at the Broadband Power Line 2007 conference held this week in Dallas, Texas.

At 2:30 PM on Thursday, September 20th, Mr. Ogata will address the council on the topic of “New Opportunities for BPL.” The bi-annual conference explores broadband powerline (BPL) technology as it applies to smart grid, energy policy, consumer electronics, Automated Meter Reading (AMR), power grid reliability, standards, and legal and regulatory issues.

“BPL technology opens a whole new market, with opportunities for utility companies and content aggregators to not only provide premium service for useful and compelling content, but also to generate new revenues by providing customers with devices that take advantage of those services and content. These devices consist of smart thermostats, smart intercoms, IP surveillance cameras, set top boxes, IP digital photo frames, IP music systems, and so on,” said Ogata.

For more information on the types of entertainment and information products that can help to proliferate smart grid applications into the home, please see <http://www.arkados.com/products.html>.

About Arkados, Inc.

Arkados, “the HomePlug Applications Company,” delivers a universal platform that enables networking of home entertainment and computer devices using standard electricity lines. The company’s system-on-chip solutions are uniquely designed to drive a wide variety of powerline-enabled consumer electronics and home computing products, such as stereos, radios, speakers, MP3 players, computers, televisions, gaming consoles, security cameras and cable and DSL modems. Arkados customers can bring numerous sophisticated, full-featured products to market faster at a lower overall development cost using a single platform: the company’s versatile and programmable ArkTIC™ platform. Arkados solutions leverage the benefits of HomePlug Powerline Alliance specifications and can also be used for in-building and to-the-home (BPL) applications. Arkados® is a registered trademark and ArkTIC™ and Direct to Speaker™ are trademarks of Arkados Inc., a wholly owned subsidiary of the Arkados Group, Inc. HomePlug® is a registered trademark of the HomePlug Powerline Alliance, of which Arkados is a member. Other names and brands may be claimed as the property of others.
