

**ARKADOS, INC. SELECTED BY KODIAK AND SHELTON TO PRESENT AT
SILICON EAST SUMMIT 2005**

The most promising semiconductor companies on the East Coast address analysts, bankers, venture capitalists, fund managers, and media at annual conference

NORTH PLAINFIELD NJ, March 15, 2005 - Kodiak Venture Partners and Shelton have identified Arkados, Inc. as one of east coast's most promising semiconductor companies, and are featuring Arkados at the upcoming Silicon East Summit. A subsidiary of CDKNet.com, Inc. (OTCBB: CDKN.OB), Arkados is a developer of highly integrated System-on-Chip (SoC) solutions focused on broadband powerline (BPL) applications.

According to the New Millennium Research Council (NMRC), BPL may really begin to take off in the U.S. this year as commercial deployments rise. Oleg Logvinov, president and CEO of Arkados, will use the Silicon East Summit as a forum to share Arkados' approach to BPL semiconductors and applications. The annual Silicon East Summit routinely features up-and-coming semiconductor companies on the verge of great market success.

Powerline communications has been sighted as one of the ingredient technologies in the growing connected home market.

"Powerline communications has many applications, and connected home applications lead the wave of adoption for this technology," said Mr. Logvinov. "By providing the speeds and reliability for whole-house audio, HDTV, home theater, and Internet connectivity, powerline communication has an opportunity to become the technology of choice for the backbone of the connected home. Arkados' standards-based solutions will offer our customers the right mix of flexibility and cost savings." BPL is also used for to-the-home and in-building applications.

Executives from Arkados also serve on the Board of Directors of the HomePlug Powerline Alliance, a body of industry leaders focused on marketing and creating specifications for powerline communications technologies.

Seating is limited, so register early at www.siliconeastsummit.com. For more information on the event, please call 972.239.5119 x125.

About Arkados

Arkados Inc., based in North Plainfield, N.J., is a wholly owned subsidiary of CDKNet.com Inc. A home networking and broadband powerline communications company, Arkados' powerline solutions enable high-speed digital transmission of voice, video, and data over the existing powerline infrastructure. Arkados' highly integrated semiconductors are targeted for the home networking and broadband communications markets with a focus on application support.

Using advanced design methodologies, Arkados is developing semiconductors that incorporate both standards-based and proprietary technologies. Arkados' designs for next-generation home-networking solutions incorporate diverse functionality with a focus on the cost-effectiveness of

final products, and are intended to get products to market quickly. Arkados' solutions support a rapid development environment through robust support of industry-standard Operating Systems and APIs, as well as comprehensive design documentation, software, training, and certification assistance. Arkados is a member of HomePlug Powerline Alliance (www.homeplug.org). For more information on Arkados, visit www.arkados.com.
